Panasonic

New Aquarea K Generation
Air to water heat pumps | AQUAREA

The Aquarea line meets the highest rank of energy efficiency criteria of European energy rating system.

Energy Labelling Regulation (EU) No. 811/2013.

Panasonic

A low energy system for heating and hot water production.

Aquarea is a ground breaking low energy system for heating, cooling and domestic hot water production that delivers outstanding performance, even at extreme outdoor temperatures.

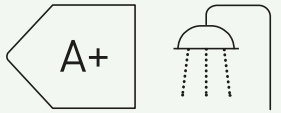

The peak of comfort, efficiency and low energy costs.

Leveraging heat pump technology and our unique expertise, Panasonic has been working for many years to help realise a sustainable society and enrich people's lives. The wide range of Aquarea products makes possible optimum solutions that are tailored to individual lifestyles while offering outstanding environmental performance.

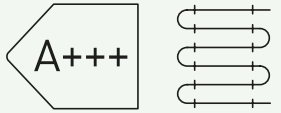

Panasonic has more than 60 years of heat pump experience, having produced an exceptional amount of compressors. Quality is what Panasonic stands for and this is a key factor for succeeding in the European market.
As a member of the European Heat Pump Association, the production of Aquarea in Europe and maintaining high security protocols in European servers for the Aquarea Smart Cloud, makes Panasonic a trusted heating partner.

Energy efficiency class up to A+.
Scale from A+ to F.

ErP 35 °C.
Energy efficiency class up to A+++.
Scale from A+++ to D.

* Rating conditions: Heating: Inside air temperature: 20 °C Dry Bulb / Outside air temperature: 7 °C Dry Bulb / 6 °C Wet Bulb.
Conditions: Water input temperature: 30 °C / Water output temperature: 35 °C. These energy efficiency might not apply to all models.

Panasonic

Introducing the new Aquarea K Generation of air to water heat pumps.

Aquarea K Generation is a ground breaking low-energy system for heating, cooling and domestic hot water production that delivers outstanding performance. This model is ideal for new installations and well-insulated homes.

High Performance and T-CAP: All in One and Bi-bloc K Generation

Wide range

Wide range to suit all homes: High Performance and T-CAP.

Improved clean design

Refined outdoor design to be blended to the environment.

Optional remote control and maintenance

Aquarea Smart Cloud.
Aquarea Service Cloud.

High tank insulation performance

Tank boasts high heat retention thanks to U-Vacua™ [1].

Further noise reduction

Panasonic's unique low noise architecture.

High energy efficiency for heating

High energy class for low and medium temperature applications.

High energy efficiency for heating

High energy class for low and medium temperature applications.

High energy efficiency for domestic hot water

DHW COP up to 3,6 [2].

Further flexibility

- Less frequent maintenance with pre-installed magnet filter
- Easy access to hydraulic parts
- Operation without backup heating at -25 °C [3]
- Can supply 60 °C hot water even at -10 °C outside temperature
- Bluefin treatment protection on outdoor heat exchanger for harsh ambient conditions

1) U-Vacua™ is a vacuum insulation panel (VIP) technology. 2) Scale from A+++ to D. Might not apply to all the models. 3) Tentative feature

A revolution in design, efficiency, connectivity and sustainability.

Harmony between technology and home.

**In our daily lives, technology is attuned to you and the environment around you, without overstating the device or interface.
Just as the air is always around you even if you're not aware of it, Panasonic's technology continues to be in tune with your environment and your life.**

Harmony with the environment. Save livingspace.
A premium white, faithful to the Aquarea spirit underlined by the seamlessly integrated controller which provides a sleek black band across the unit.

GOOD DESIGN AWARD 2022
BEST 100

Like indoor equipment, the outdoor unit is designed to harmonize with architecture and the environment while quietly supporting the precious time spent with the warm family.
The outdoor units, with an anthracite grey colour which will dress the entire range, have been completely redesigned with an innovative design that will find its place in all spaces.

All in One unit and Bi-bloc indoor unit are designed to blend into your interior space effortlessly.
